Allam Ashraf

GTM Engineering | Frontend Development & Lead Automation

Cairo, Egypt | allam@allamashraf.dev | allamashraf.dev
github.com/allamashraf | linkedin.com/in/allam-ashraf

Computer Science student with experience in real-estate sales and digital marketing. Built an offline sales showroom and a bilingual lead-capture page for AOG Developments, and designed a local lead-routing prototype. Focused on the handoff from first click to the sales team.

EXPERIENCE

AOG Developments | **2025 - 2026**

Digital Marketing Intern > Digital Marketing Specialist > GTM Engineer

- Ran the company's website, media buying and marketing automation alone after progressing from a digital marketing internship.
- Designed and built an offline touch-screen sales showroom used in production, plus a bilingual hotel lead-capture page that was completed but never launched.

Gold Star | **2024 - 2025**

Sales Agent, later Social Media Consultant

- Handled inbound real-estate leads, then generated leads through social media for the sales team.

SELECTED PROJECTS

Interactive Sales Showroom

Delivered | AOG Developments

Built end-to-end with HTML, CSS, JavaScript and a local Node.js maps server: touch navigation, full-screen video, master-plan viewing, QR directions and idle behaviour. No usage or sales-impact data was collected.

Bilingual Hotel Lead-Capture Page

Unreleased | AOG Developments

Built Arabic/English layouts, language switching, interest-based forms, validation and dataLayer events. Never launched; no CRM connection or conversion results.

Lead-Routing Automation Prototype

Local JavaScript prototype | Designed for AOG Developments

Designed phone normalization, rule-based scoring, deduplication and round-robin assignment. Tested with fictional scenarios; n8n, Airtable and Telegram remained templates or mocks. Never deployed or used by AOG.

TECHNICAL SKILLS

HTML, CSS, JavaScript, Node.js, Arabic/English and RTL/LTR interfaces, form validation, lead scoring and routing, n8n workflow templates, webhooks, Meta Ads Manager.

EDUCATION

Computer Science undergraduate | Egypt University of Informatics (EUI), Cairo | Currently enrolled

Open to GTM Engineering & RevOps roles - and selective project collaborations.
